Amendments to the Specification

Please replace the paragraph at page 7, beginning at line 26, under the heading SUMMARY OF THE INVENTION with the following:

According to the invention, there is provided a hybrid maize plant, designated as 39R62,
produced by crossing two Pioneer Hi-Bred International, Inc. proprietary inbred maize lines
GE570800 and GE533276. These lines, deposited with the American Type Culture Collection,
(ATCC), Manassas, Virginia 20110, have accession number [] PTA-5510 for GE570800
and accession number [] PTA-5518 for GE533276. This invention thus relates to the
hybrid seed 39R62, the hybrid plant produced from the seed, and variants, mutants and trivial
modifications of hybrid 39R62. This invention also relates to methods for producing a maize
plant containing in its genetic material one or more transgenes and to the transgenic maize plants
produced by that method. This invention further relates to methods for producing maize lines
derived from hybrid maize line 39R62 and to the maize lines derived by the use of those
methods. This hybrid maize plant is characterized by excellent yield for its maturity and good
stalk strength and early growth.
Please replace the paragraph at page 42, beginning at line 2, under the heading <u>DEPOSITS</u> with

the following:

hybrid maize plant 39R62 and inbred parent plants GE570800 and GE533276 with the American Type Culture Collection (ATCC), 10801 University Boulevard, Manassas, Virginia 20110-2209. This deposit of seed of hybrid maize plant 39R62 and inbred parent plants GE570800 and GE533276 will be maintained in the ATCC Depository, which is a public depository, for a period of 30 years, or 5 years after the most recent request, or for the enforceable life of the patent, whichever is longer, and will be replaced if it becomes nonviable during that period. Additionally, Applicant(s) have satisfied all the requirements of 37 C.F.R. §§ 1.801 - 1.809, including providing an indication of the viability of the sample upon deposit. Applicant(s) have no authority to waive any restrictions imposed by law on the transfer of biological material or its transportation in commerce. Applicant(s) do not waive any infringement of their rights granted under this patent or under the Plant Variety Protection Act (7 USC 2321 et seq.).
